My Dear Sir

The other day a grant of Rs 11,439 from L F G was sanctioned for expenditure on drinking water wells in the several Talukes of your District. This grant had for its object the provision of wells in places where owing to the unfavourable character of the season the want of drinking water was most felt. The season

has since improved by the habit of
taking almonds everywhere in the State
and the Durbar thinks that the
need for spending upon wells such
a large sum as that sanctioned cannot
now exist. He is of opinion that
such wells should not be undertaken
taken unless absolutely necessary
I am accordingly desired to enquire
how much of the grant can be
made available for expenditure elsewhere

Yours truly
